

Internet Services Order Form
Request Additional DSL IP Addresses

Users are asked to fill out this form when requesting more than five (5) IP addresses for SelectNet's DSL service. AT&T subscribes to and supports the American Registry for Internet Numbers (ARIN) guidelines set forth in RFC2050 and retains ownership of any network numbers assigned to it's customers. Customers leaving the AT&T DSL network will be required to stop using the network numbers assigned from AT&T DSL Internet Service address space.

DSL Internet Service (multi-user only) offers IP addressing options providing a maximum of 5, 13, or 29 public IP addresses. AT&T will evaluate the reason for needing these IP addresses before authorizing the assignment.

NOTE: If you do not need public IP addressing, and can use Network Address Translation with private IP addresses, please do not continue with this form. Contact a SelectNet representative about your order.

Customer Information:

Organization
First Name Last Name
Phone Fax E-Mail
Address
City State/Province
Zip/Postal Code Country

Additional Services Requested

Number of public (routable) IP addresses needed: [] 13 usable IP addresses
[] 29 usable IP addresses

How many hosts (PCs, servers, etc...) are on your network today? (1-29) In one year? (1-29)
